

CATALOG **2021**

Welcome

Welcome to Sonrise Poly. We specialize in handcrafting bent poly furniture. We started producing our first product in 2003, which was the classic rocker. Since then, we have continued to add products to our line, and all the while continuing to give you the best quality for one of the best value offerings in the poly furniture market. We invite you to browse our selections, and thank you for choosing Sonrise Poly!

About Poly

Poly Lumber is made of recycled high-density polyethylene materials, such as recycled milk bottles. Poly Lumber is known to resist splintering and it never rots, and also resists termites. The texture and appearance are similar to a wood product. Poly Lumber does not need chemical weatherproofing treatments.

We specialize in high quality detail-oriented furniture that will last many years with normal use; however we cannot guarantee anything if this furniture is used in a high traffic commercial area.

Benefits of Poly

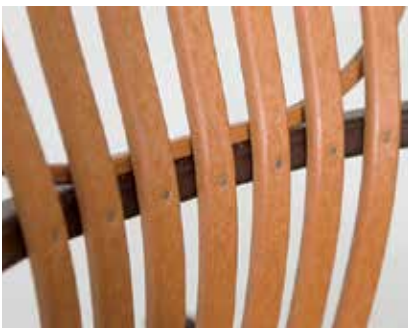

- Eco Friendly
- Chemical Free
- Easy to Clean
- Low Maintenance
- Lasts Longer than Wood
- Keeps its Color
- Resists Mildew
- Weather Resistant

Curved parts are carefully crafted for uniformity.

We use all stainless steel hardware.

Our special bending process allows for our unique designs. Higher density poly material increases our trim strength.

Classic Rockers, Lumbar Rockers and Benches feature mortise and tenon construction.
